EHS Solutions Based in Reality

How Can We Assist You?

ETC understands the business owner's perspective and the often-difficult task of doing the right thing while managing the bottom line. Our experience across diverse industries, both public and private, gives us the tools to efficiently assess your safety, health and environmental compliance issues and to recommend an appropriate plan of action to achieve your goals, get the job done right, on time and within budget. Let us help you!

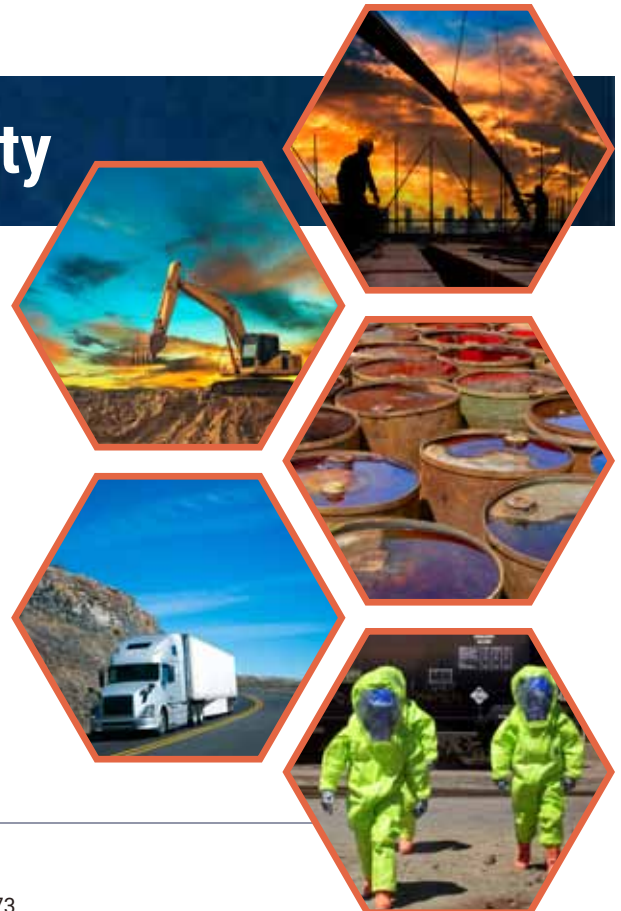

This list represents some of our services; contact us to discuss your specific EHS needs.

- ◆ Site Safety Audits ◆ Compliance Audits ◆ Hazard & Risk Assessments
- ◆ Job Hazard Analyses ◆ Safety Manual Development / Review
- ◆ Emergency Response Plan Assessment / Development / Training
- ◆ Emergency Response Guides ◆ Training Needs Assessments
- ◆ Site-Specific Curriculum Development ◆ Safety Management Services

Training & Consulting

Getting Back to In-Person Safety Training

We know you don't need to be reminded that 2020 brought many challenges to the business community. One of those challenges was making sure that your company's safety training stayed on track. While business slowed down for ETC during the shutdowns, we continued to conduct training at our two Arizona locations, at clients' sites, and we were able to adapt a few training classes to be delivered remotely via a web-based meeting platform. It's become evident over the past few months that companies are getting back to business and catching up on their workers' EHS training. We thought this was a great time to remind you of why we at ETC believe in the benefits of in-person, face-to-face, instructor-led training.

Individual Attention & Adaptability

In an in-person, face-to-face setting, instructors can observe and interact with the students. This gives the instructor the unique perspective to sense if a student comprehends the topic; if there is a learning barrier that needs to be addressed; etc. The instructor can also provide company / industry specific information and answer questions in real time.

Focus & Comprehension

Our modern lifestyle lends itself to distractions and interruptions. Attendees of in-person training classes have an easier time focusing on the content of the course without the distractions that may occur in an e-learning setting. Being in a dedicated training space also makes comprehending the material easier for some students.

Instructor / Student Relationship

Our subject matter experts encourage discussion and answer questions during class. Most of our instructors make themselves available by phone or email to answer students' questions that may arise after class at their workplace. Client feedback has shown that having access to a trusted expert in their field has proven invaluable on many occasions.

Student-to-Student Interaction

Students have the opportunity to learn from each other by sharing their experiences as they relate to the topics being discussed. Another benefit of student-to-student contact is that it can help the attendees build a network of peers in similar industries. One of our instructors mentioned the social aspect of classroom training. He has found that with multiple ways to communicate without actual face-to-face contact, people are not learning the nuances of personal interaction. A group setting gives students an opportunity to interact with others on a professional level, which is necessary in business.

Hands-On & Group Exercise Training

There are some industries / occupations that are required to have hands-on, group exercise training. As we were discussing training options, it was unanimous among our instructors that any initial training should be done with an instructor even if there isn't a hands-on component.

We know you have choices when it comes to training your workers – quality, cost and convenience being the major factors in your decision. We strongly believe that we have those aspects covered with our in-person, face-to-face, instructor-led training whether you choose a class through ETC's open enrollment schedule or opt for a custom training option.

***If you have any questions about your specific training needs, don't hesitate to contact us.
We look forward to talking with you!***

HAZWOPER

40-hr General Site Worker

5 days, 8am - 5pm \$595

29 CFR 1910.120 Intended for personnel who are routinely involved in the cleanup and handling of hazardous materials. *Maximize your training by bringing an SDS to class – one used at your facility.*

Phoenix

Mon-Fri July 12-16
Mon-Fri Aug 9-13
Mon-Fri Sept 13-17

A Customized Approach

ETC is known for the Custom Training we provide, but did you know that we can also customize the OSHA Outreach training? OSHA mandates that certain topics are covered but if your worksite has a particular need, for instance Trenching & Excavation or Electrical Safety, more focus can be put on those areas. If you're interested in OSHA training but don't need the Outreach Training, our safety professionals can mix and match OSHA topics to meet your specific training needs.

Here's a sample of the custom safety training we offer:

- ◆ Chemical Handling
- ◆ Fire Safety
- ◆ Hazard Recognition
- ◆ Scaffolding
- ◆ Electrical Safety
- ◆ Forklift / Aerial Lifts
- ◆ Heat Stress Prevention
- ◆ Slips, Trips & Falls
- ◆ Fall Protection
- ◆ Hand & Power Tool Safety
- ◆ Ladder Safety
- ◆ Trenching & Excavation *and so much more!*

Asbestos Training in Tucson

EPA-Accredited through State of Texas* (license #100096)

Initial Classes

Asbestos Awareness

2 hours (on 1st day of any initial class), 8am - 10am \$50

Training for individuals who work in areas where asbestos containing materials (ACM) may be present, but are not disturbed in the course of their work.

Asbestos Building Inspector

3 days, 8am - 4pm \$535

Required for individuals who will investigate public or private buildings for asbestos containing materials.

Mon-Wed July 12-14
Mon-Wed Sept 13-15
Mon-Wed Nov 1-3

Asbestos Contractor/Supervisor

5 days, 8am - 4pm \$695

Completion of this course certifies the individual in removal, encapsulation and enclosure of asbestos containing materials and to be the on-site competent person for an abatement crew.

Mon-Fri Aug 2-6
Mon-Fri Oct 4-8
Mon-Fri Dec 6-10

Asbestos Operations & Maintenance

2 days, 8am - 4pm \$315

Intended for personnel who will disturb small amounts of asbestos as a result of routine or emergency maintenance or repair work.

Wed-Thu Aug 25-26
Thu-Fri Nov 4-5

Open Enrollment registrations are not confirmed until payment is received. Cancellations must be received five business days PRIOR to the start of the class. Substitutions are accepted. No refunds will be granted after class completion, even if participant failed to meet certification requirements. Prices / class dates are subject to change without notice.

Annual Refresher Classes

All Asbestos refresher classes are a review of topics originally presented in the initial course and a presentation of new developments in government regulations, state-of-the-art work practices and industry standards. *For all Asbestos refreshers, a copy of the student's initial asbestos certification is required for admittance.*

Asbestos Building Inspector

½ day, 8am - 12pm \$95

Tue Aug 24
Tue Oct 19
Tue Dec 14

Asbestos Contractor/Supervisor

1 day, 8am - 4pm \$185

Mon Aug 23
Mon Oct 18
Mon Dec 13

Asbestos Operations & Maintenance

½ day, 1pm - 5pm \$95

Tue Aug 24
Tue Oct 19
Tue Dec 14

* Meets all federal requirements to work anywhere in the US.

Not in Tucson?

ETC's asbestos training is not limited to our Open Enrollment schedule. We can bring one of our current classes to you or design one based on your company's needs at a time and location that's convenient for you.

Call us today for a custom training quote!

All listed training topics (and more!) can be taught at your site and customized to your policies and procedures.
